Dear Sir/Madam

We are excited to have you and your team join us at **Security Exchange 2026**, M.Tech's annual conference and tradeshow dedicated to cybersecurity. Centered on the theme '**AI: Friend or Foe**', it is happening on **21 May 2026, 9am to 3pm**, at Sands Expo & Convention Centre.

At Security Exchange, you will discover how Artificial Intelligence is reshaping cybersecurity and what you can do to leverage it. At the same time, you will learn how you can circumvent the potential risks that come as AI grows more powerful.

There will be expert-led insightful discussions on how you can secure AI systems against evolving cyber and data threats as well as on what "future-ready" security means in 2026.

You will also have an opportunity to hear directly from Chief Information Officers (CIOs) and practitioners about how enterprises are deploying AI safely at scale and how you can shape policies, practices and platform that last.

You can also look forward to valuable networking opportunities where you connect with industry experts and product vendors, as well as discover cutting-edge AI solutions that elevate your organization's security posture.

Joining us at Security Exchange 2026 undoubtedly contributes to your organization's improved security and increased efficiency in this AI-powered era.

Secure a place by registering your interest here – <https://sxconference.com/>

For further information, feel free to reach out to us at [sgmarcom@mtechpro.com](mailto:sgmarcom@mtechpro.com).

We look forward to seeing you.

Regards

**Security Exchange 2026 Team**
